

Mission Statement

At Puddleducks our aim is to provide a friendly, safe, and stimulating environment where children can develop their, mental, physical, social, and creative skills through carefully structured activities. All our staff are fully qualified nursery practitioners and have been carefully chosen to work as a team, dedicated to help your child develop to their potential. We maintain ratios at all times; Cottontails 1:3, Tiny Learners 1:4, Pre-School 1:8.

Our daily routine is designed to provide a balance of activities which we feel are essential for all round development with the ultimate aim of helping the children to transfer to primary school with confidence and ease.

The children are divided into three age groups in order to cater for their individual requirements. Within each of these groups there are a combination of individual and group activities with structure and free play enabling the children to develop their communication and social skills, independence, and self-control. Activities include role-play, story time, music, and movement, enabling children to learn how to share and work together and also develop specific skills such as self-expression and respect for others.

Children in our Pre-School group have the opportunity to choose from a variety of activities such as role play, construction, arts, and crafts, using the computer, choosing a book to look at, going outside to play and many more activities.

Throughout all our activities in the nursery we aim to help your child develop a positive self-image and at the same time enjoy learning through play during those special early years in a warm and caring environment.
